An ode to PSWs

Thank you for being the eyes, the ears, the hands and the voice of one of the most frail and vulnerable sectors of our society.
While those in your care may not be able to express their thanks, please know they are grateful.
   Thank you for opening your hearts up to the concerns they share.
When the days are long and the rewards are hard to see, please know you are deeply and sincerely appreciated.
While there may be times you believe your job is thankless, remember that the world is a better place because of the work you do.
   Thank you for treating those in your care as a mother, a father, a best friend - not just as a case file.
   Thank you for seeing those in your care as a whole person - not just a "feed", a "toilet" or a "bath".
   Thank you for making sure each person is nourished and hydrated, clean and dignified.
   Thank you for tending to those small details that make the biggest difference.
Thanks for helping those in your care to feel loved and cared for.
   Thank you for putting a smile on the faces of those you help each day.
   Thank you for governing the homes and spaces they keep.
   Thank you for making sure they are safe and stable as they move about.
   Thank you for keeping their space "familiar", in a way that feels comforting and looks and feels like "home".
   Thank you for offering a nurturing touch and the best of care.
   Thank you for caring for their needs on days when you've been too busy to meet your own.
   Thank you for your kindness and patience.
   Thank you for working with us as families and fellow staff.
   Thank you for all you do.
From the bottom of our hearts -- THANK YOU!
A deep and heartfelt thank you from the DementiAbility Team!
We sincerely appreciate all you do.
When we are asked what a Personal Care Worker makes .......
   We say.... THEY MAKE A DIFFERENCE!
